Prompt Suggestions for the User

On Asking Questions About the NOFO
1. What key performance metrics does the NOFO emphasize? How should we address these in the narrative?
2. Does the NOFO specify any required partnerships or collaborations? How should we present them in the narrative?
3. What kind of impact or outcomes is the grant seeking? How can we align our project with these expectations?
4. Are there specific funding restrictions mentioned in the NOFO? How do they apply to our project?
5. What evaluation or scoring criteria are mentioned in the NOFO that we should prioritize in the narrative?
6. Are there examples of past funded projects in the NOFO? How can we use these examples to inform our approach?
7. How can we ensure that the proposed project aligns with the federal priorities mentioned in the NOFO?
8. What challenges or risks does the NOFO mention? How can we address these in our project narrative?
9. This wasn't explicitly mentioned in the 'Eligibility Criteria' section on the requirements page, but I'm applying on behalf of a tribe in MA. Is this funding available to tribes, or is it strictly for municipalities?

On Generating a First Draft of a Section
* some of these are section-dependent
1. In this section, please highlight our partnership with [Partner Organization] and their role in the project.
2. Include the statistics from the housing report to demonstrate the need for this project.
3. Please research trends in public health improvements in similar communities and cite them to strengthen this section. Provide citations.
4. Find recent data on climate resilience initiatives and integrate that into the environmental impact section.
5. Research how similar projects have addressed this issue and provide evidence or case studies.
6. Please use an optimistic and forward-looking tone in this section to emphasize the positive future impact of the project.
7. Use a data-driven tone here, emphasizing the numbers and statistics that back up our proposal.
8. Ensure this part of the narrative highlights new data and avoids duplicating information from the introduction.

9. This section should highlight risks and mitigation strategies, without restating the project's benefits already covered.
10. Use the structure and language from the successful application I uploaded to guide this section.
11. Reference the winning proposal's approach to community engagement and adapt it for this project.

On Iteratively Making a Draft Better
1. Can you create a stronger opening statement for the narrative's introduction section?
2. How can we make this section more compelling in terms of community impact?
3. Can we strengthen the alignment between this section and the goals outlined in the NOFO?
4. What additional details or data can we incorporate to make this section more robust?
5. Is there a clearer way to explain the long-term benefits of the project?
6. How can we refine this section to better emphasize the urgency of the project?
7. What are some ways to simplify the language in this section to make it more accessible to a general audience?
8. Can we provide more specific examples or case studies to support this section?
9. Is there any additional context or background information we should add to this section?
10. Is there a way to make this section stand out more to reviewers, based on the NOFO's evaluation criteria?
11. What else can we do to highlight the innovative aspects of the project in this section?
12. Can we improve the flow or structure of this section to make it more convincing?
13. What questions do you think a reviewer might have after reading this section? How can we preemptively answer them?
14. Could a reviewer see any contradictions or inconsistencies in this section compared to the rest of the narrative?
